PROJECTS

Portfolio (React JS)

- I built my portfolio website using React, showcasing my skills and projects with a dynamic, responsive design that emphasizes performance and user experience.
- Website : <https://aboutme-git-main-goputens-projects.vercel.app/>

IMDB Clone (React Js , API)

- Developed an IMDb clone using React.js and Context API for efficient state management. Integrated a third-party API to fetch and display real-time movie data, including titles, ratings, and descriptions. Implemented responsive design and search functionality for enhanced user experience.
- Link : <https://imdb-clone-one-rho.vercel.app/>

Paper Website Project (PHP, HTML, CSS, JS)

- I developed a comprehensive website for students to access paper notes and key topics using HTML, CSS, JavaScript, and PHP, featuring an intuitive interface, seamless navigation, and a responsive design to enhance the learning experience.
- Website : <http://mitpaperdown.rf.gd/MIT/login.php>

Movie Website (HTML, CSS, JS)

- I created the home page of a movie website using HTML, CSS, and JavaScript, ensuring a responsive design and seamless user experience.
- Website : <https://goputen.github.io/movieszone/>
